

# NATURE!

## OUR TEACHER

**2024** Explore the outdoors. • Prioritize nature-based materials over synthetic substitutes. • Compost organic matter. • Purchase high quality and versatile garments. • Reuse bags and refill containers. • Support local farmers and buy in-season produce. • Choose aluminum over plastic for easier recycling. • Donate gently used clothing and upcycle damaged fabrics for cleaning. • Plant native species. • Take advantage of natural sunlight, ventilation, and rainfall in your daily routines.
